care & procedures

Leisure Creations furniture is extremely durable and built specifically for common everyday use outdoors. But, proper maintenance is the only way to ensure it looks and works as good on year 5 as it did on day 1. Here are some helpful instructions on how to maintain your quality outdoor furniture.

TABLE TOPS – Wash the table top using a soft cloth with a solution of water and mild detergent. Rinse with clean water.

FRAMES – Wash frames using a soft cloth and a solution of water and mild detergent and rinse with clean water. For more stubborn stains, you may use a mild abrasive such as Soft Scrub (regular – NO bleach). Periodic waxing with a paste or clear automobile wax can be performed on smooth frame finishes. This will help protect against exposure to sunlight and salty air. Be sure to inspect nylon glides frequently and replace if worn or missing. This will help prolong the life of your furniture.

VINYL STRAP – To protect your vinyl from build-up and mildew growth clean frequently with a solution of mild dishwashing detergent, such as Dawn and ½ cup of white vinegar to two gallons of warm water. Rinse with clean water. For more stubborn stains, you may use a mild abrasive such as Soft Scrub (regular – NO bleach). Periodic paste waxing or use of Armor All® will prolong strap life and help reduce staining.

SLING, CUSHION & UMBRELLA FABRIC – Brush off any loose dirt. For cleaning, prepare a cleaning solution of mild soap, such as Woolite® or Dawn® dishwashing liquid, and lukewarm water (NO Bleach). Use approximately ¼ cup of soap per gallon of water. Clean using a sponge or a soft bristle brush, allowing the cleaning solution to soak into fabric. Rinse thoroughly to remove all soap residue. Allow fabric to air dry.

If done properly, outdoor furniture can be safely cleaned as often as needed, and frequent cleaning should prolong the life of your furniture.

Below are some items that can be harmful to vinyl strapping, fabric, and frame finishes:

- Do not use strong detergents or bleach, solvents such as methyl, ethyl, ketone, acetone or paint thinner.
- Do not use power washers.
- Suntan and sunblock products may be harmful to cushions, sling and vinyl. Do not allow such products to come in contact with seating surfaces to avoid deep penetrating stains, which are not covered under warranty.

AQUA MGP - Leisure Creations Aqua MGP Products are designed to be in the pool and have a resistance to sun and chemical levels of a well-maintained pool.

When adding concentrated chemicals to your pool, such as shock, remove Aqua MGP Products from the pool and do not return until chemical levels are back to normal.

CLEANING YOUR AQUA MGP PRODUCTS - Use water and a soft-bristle brush or cloth for routine cleaning. For a deeper clean, remove from the pool and use a mild household cleaner or a Magic Eraser

Depending on calcium levels in your pool water you may see a white powdery coating on your Aqua MGP Products. You can clean this with CLR (Calcium, Lime and Rust Remover).

A photograph of a modern outdoor patio furniture set. The set includes a large sectional sofa with a dark grey wicker frame, light beige cushions, and three patterned throw pillows. A large, square ottoman with a matching wicker frame and dark grey fabric top sits in front of the sofa. To the right is a single armchair with a similar wicker frame, light beige cushion, and a patterned throw pillow. A small, square side table with a wicker frame and a gold-colored metal top holds a lantern. The furniture is arranged on a light-colored rug with a large, stylized leaf pattern. In the background, a pergola with a dark metal frame and horizontal slats covers the patio area. The pergola is situated on a balcony or deck with a black metal railing. The background shows a multi-story building and bare trees, suggesting a winter or early spring setting. The image is framed by teal and orange geometric shapes in the corners.
